

SHAPING THE FUTURE AT CHEMOURS

Luncheon/Webcast • September 9, 2015 • Penn Club
Free Webcast for ACS Members – Register Now at www.cmeacs.org

Abstract

- What is the future of the performance chemicals business?

Arguably the most significant spinoff of the legendary DuPont in the last half century, The Chemours Company is in a unique position to re-invent the nature of the formerly known Chemicals & Fluoroproducts and Titanium Technologies businesses of DuPont.

This talk will cover how the market cycles pose serious challenges in the feedstock price, inventories and profit margins of the performance chemicals markets. Also, the presentation will show how companies well-positioned for the increased economic activity in consumer spending, housing and automotive sectors can take advantage of the business potential. Chemours has been engineering programs to fully leverage its competitive advantages in applications development, scale, productivity and inventory management.

Don't miss this unique chance to hear about the strategies that the leader of Chemours will be implementing to shape the exciting future of one of the leading players in the performance chemicals market.

Speaker: **Mark P. Vergnano** is the President and Chief Executive Officer of The Chemours Company.

Mark draws on over three decades of chemical industry experience, having joined DuPont in 1980 as a process engineer. He was named vice president for DuPont Surfaces and Building Innovations in October 2005. In 2006 he was named group vice president of DuPont Safety & Protection. In 2009 he was named executive vice president of DuPont Chemicals & Fluoroproducts and Titanium Technologies.

Born in Hartford, Conn., Vergnano is a chemical engineer (University of Connecticut) and MBA (Virginia Commonwealth University). He is a member of the U. of Conn. School of Engineering Academy of Distinguished Engineers and Hall of Fame. Vergano is a board member for the U.S. National Safety Council and Johnson Controls, Inc.
