

Huntsman: Transforming the World of Advanced Materials

Luncheon/Webcast of October 2, 2014 at the Yale Club

Abstract

- What propels the business of advanced materials?
- Why is global functional alignment critical to competitiveness?
- What is the future of advanced material solutions?

With annual sales over \$1.3 billion and the heritage of pioneering epoxy and polyurethane-based polymer products, the Huntsman Advanced Materials Division is committed to driving a culture of growth and sector leadership.

Huntsman's rapid innovation has been key in the commercialization of products with superior performance and durability. In the case of structural adhesives for composites, the weight reduction, energy savings and lower environmental footprint gains are enabling the next generation of aircraft, automobiles, advanced structures and electronic devices.

However, tepid economic growth, rising fixed costs and volatility in the cost of raw materials have driven Huntsman to implement a bold transformational program that increases the alignment of global resources with attractive higher-growth markets. By accelerating the development of solutions, improving manufacturing efficiencies and enhancing commercial effectiveness, the company expects benefits in excess of \$70 million annually by seizing opportunities in aerospace, adhesives, high-performance coatings, power generation, green electronics and large-scale engineering projects.

Join us on October 2 to hear the unique vision and insights of James Huntsman on the fascinating world of light, durable and highly efficient materials.

Biography

SPEAKER: James H. Huntsman, age 43, is Division President, Advanced Materials. Huntsman was appointed to this position in July 2011. Prior to that time, Mr. Huntsman served as Vice President of Huntsman Advanced Materials, Americas Region since February 2009. From March 2006 to February 2009, Mr. Huntsman owned and managed a film production company based in Los Angeles, California. Prior to March 2006, he served as our Vice President, U.S. Base Chemicals and Polymers. Mr. Huntsman originally joined our Company in 1990 and has held numerous manufacturing and commercial roles of increasing responsibility within a number of divisions. Mr. Huntsman is the son of our Executive Chairman, Jon M. Huntsman, the brother of our Chief Executive Officer, Peter R. Huntsman, and the brother of our director, Jon M. Huntsman, Jr.
